Stainless Steel Fabricators is a quality, precision oriented custom fabrication shop serving the greater Raleigh area since October of 2000.

Whether your custom project utilizes stainless steel, aluminum, or steel, the sales engineers at Stainless Steel Fabricators can work with you to produce the best product for your individual needs. Stainless Steel Fabricators is committed to quality, using both time proven fabrication techniques along side state of the art technology to produce the right product for your needs.

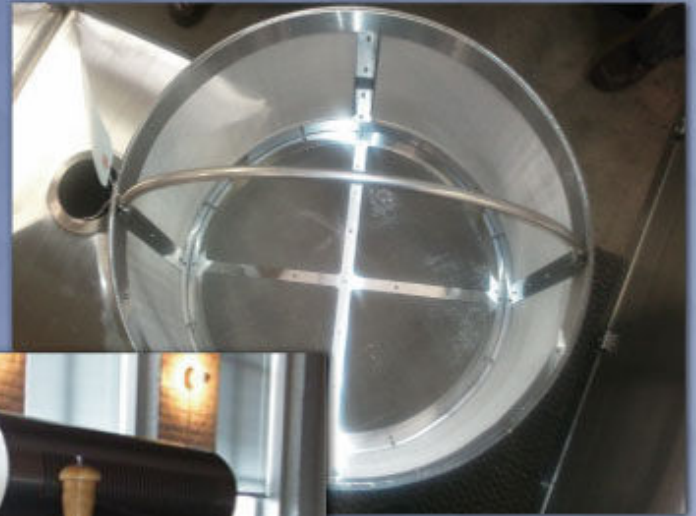

From concept to reality, if your project demands the long lasting quality of an American made, custom stainless steel application, why settle for anything less?

Stainless Steel Fabricators is your premier, quality custom metal fabricator in the greater Raleigh area.

We operate on a commitment to a quality experience, from the time of our first contact with you, to the time your product is complete and in your possession. It is the goal of our highly skilled and experienced staff, to provide you with products of the highest quality in a timely manner in order to meet and exceed your project's requirements and your expectations.

We are dedicated to providing you outstanding customer service, working personally with you individually to determine the best and most efficient way to meet your needs. At Stainless Steel Fabricators, we work with you, answering your questions and concerns, while offering experience-based suggestions tailored to each project. Our goal is your satisfaction, both with the products you receive, and the process by which your product is developed and produced.

FABRICATION

from Idea to Reality

Stainless Steel Fabricators

WWW.SSTLF.COM • (919) 833-3520

Custom fabrication is our business! If you have a complete drawing or simply an idea accompanied by a few measurements, our sales engineers can help turn it into a reality. Our experienced engineering team can work with you in one of two ways:

1. We can accept complete drawings and efficiently integrate them into our fabrication process to ensure that your specifications are met. Please submit any drawing files in DXF, DWG, or PDF format.
2. We can discuss your project needs/concerns via phone, email, or face-to-face conversation to develop an efficient and quality solution, and create drawings/prototypes tailor-made to your specifications and concerns.

EQUIPMENT

State of the Art

Stainless Steel Fabricators

WWW.SSTLF.COM • (919) 833-3520

As a complement to our highly skilled staff fabrication team, we implement state of the art technology, techniques, and procedures for efficiency and precision. Quality equipment, such as our 4000-Watt laser cutting system and 175-ton press brake, under the operation of our production team, enable us to process many materials in many variations of type and thickness.

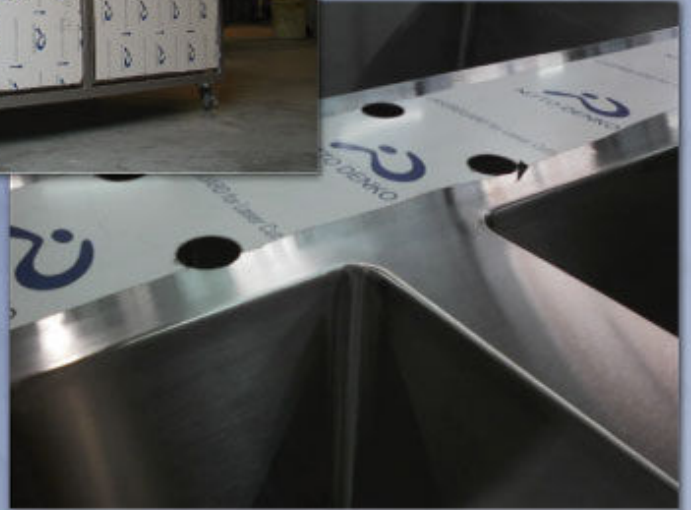

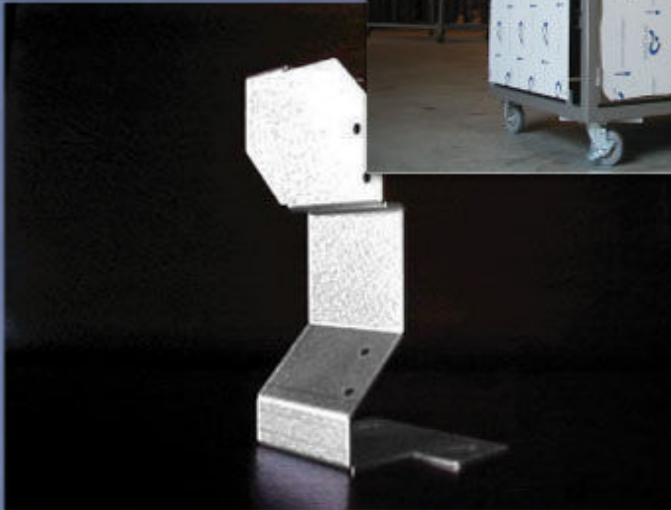

We are well equipped to create your custom-fabricated solution in the following materials:

- Stainless Steel
- Galvanized Steel
- Aluminum
- Cold Rolled Steel
- Hot Rolled Steel

With a custom, solutions-based orientation toward the fabrication of your product, the possibilities are innumerable! From corrosion resistant marine grade stainless steel to lightweight aluminum, we can work with you to make your idea a reality.

Specializing in the production of biotech and pharmaceutical applications, as well as in products for personal specific business application, we custom-manufacture a wide variety of products such as:

- Laboratory tables, sinks, and boxes
- Enclosures
- Electrical NEMA enclosures
- Machine guards
- Brackets
- Panels
- Trim
- Tanks (no pressure vessels)
- Kitchen countertops and tables
- Tube and angle welded frames
- Signs
- And more...
